

# WL250

## Clean and refreshing water on demand.

The WL250 delivers on a promise of endless refreshing chilled water for your workplace. It features multi-stage filtration and ultraviolet light sanitization to reduce bacterial growth and prevent potential biofilm buildup. The business friendly design and guaranteed reliability ensure you have all the quality cold and hot water your employees and guests need.

### Advanced Technology

The WL250 has three core technologies:

#### High Performance Filtration

This model can be configured with four stage reverse osmosis filtration or multi-stage carbon filtration depending on water conditions. These processes remove water contaminants and chlorine to improve water taste and odor.

#### In-tank UV

An in-tank ultraviolet light reduces bacterial growth to guarantee fresh clean water.

#### BioCote® Anti-Microbial Protection

Plastic surfaces surrounding the dispensing area are infused with BioCote®.

\*For more information visit [www.biocote.com/home-us](http://www.biocote.com/home-us).

#### Good for the Earth

Waterlogic coolers have been shown to reduce carbon footprint by up to 72% compared to bottled water coolers.\*

Bottleless water coolers reduce plastic bottle contribution to landfills.

The WL250 is ENERGY STAR certified.
